

# NEII Podcast on the ASME A17.7/B44.7 Performance-Based Code for Elevator and Escalator Safety

The National Elevator Industry, Inc.'s first-ever podcast on the Performance Based Code for Elevator and Escalator Safety is now available online! To download or stream this audio podcast, click the link below.

<http://www.neii.org/pbcmain.cfm>

The podcast provides an educational introduction to the Performance-Based Code (PBC) and presents listeners with a more detailed understanding of the complexities and issues surrounding it, as well as adoption and implementation progress.

Throughout the podcast, host Ed Donoghue, managing director of NEII, interviews various industry experts about their views of the PBC, providing an easy, yet comprehensive overview of the code.
